The nursery

The municipal nurseries welcome children from 6 months to 36 months, and offer a quality pedagogical and educational experience for the development of boys and girls.

The regional regulation provides for annual opening from September for at least 42 weeks.

The municipal nurseries are open from 7.30 to 17.30. There are three possible frequency time slots.

- from 7,30 to 13,30
- from 7,30 to 16,15
- from 7,30 to 17,30

Routines

The routines mark the rhythms of the day at the nursery and offer the framework within which the children live the various educational experiences at the nursery. The routines themselves are an opportunity for development, autonomy and learning.

The educational day at the nursery unfolds as follows:

- reception at the entrance
- morning snack
- educational experiences and game
- change and personal hygiene (several times a day)
- educational lunch
- siesta
- afternoon snack
- reunion

Family participation

The environment of the nursery encourages communication, reception, discussion and specific meetings during the educational year with families to share the educational and development path of children by supporting parenting.

The nursery work team

The children's experiences at the nursery are designed and supported by the staff who have specific roles, tasks and functions, made up of educators and operators.

ENROLLMENT

Admission from 6 to 36 months may be required.

Applications for admission to municipal infant-toddler centres must be made by residents of the municipality of Campi Bisenzio online by accessing the dedicated section of the institutional website of the municipality of Campi Bisenzio according to the calendar set annually by the Authority (around April).

The family can express a preference for a nursery and /or time slot, based on the ranking resulting from certain criteria (reference is made to the PEC of the Municipality published on the institutional website) the families will be contacted for the registration confirmation procedures.
